Wingsang, from Calcutta, left danger of the colony suffering on account Singapore on April 27, and may be ex. of the heated discussions about its condition. Some have derived from this statement the impression that we wished to throw doubt on the genuineness of the Governor's sickness. Far from that; we were not thinking of the Governor at all, merely stating a general principle. No one who has seen His Excellency during the last few weeks can have any doubt about the serious nature of his health. And it is this physical feebliness which makes criticism of his action so painful.' We feel confident that if he had been in robust health, if he had not had the susceptibilty of a sick man, there would have been no break in the friendship between him and the unofficial members. But really the Colony cannot stand to have its rights ignored and treated with contempt even by a sick man.

THE annual gathering at Shek Wan took Messas Adamson, Bell & Co. inform us place this week, and there was, as usual, that the s. s. Monmouthshire left Singapore | a large crowd of worshippers and others. Among the "others were a good many thieves and sharpers from Hongkong and elsewhere. On account of their presence General Fong Yu sent a mandarin with a contingent of braves to the place to do police duty, but in spite of this, cases of thieving were more pumerous than last year. A large number of women from Hongkong lost earrings, bangles, fingerrings, &c. /Several thioves were arrested, and the mandarin in charge had them punished summarily by cutting off the lobes of their ears and brauding their cheeks. Some of those who were treated in this way were men who had been deported from Hongkong. The punishment of the thieves

No. 8522.—MAY 2, 1891 'FRAGRANT WATERS' MURMUR That it is semi-officially announced His Excellency the Governor leaves Hongkong in a few days. That it is a thousand pities he did not leave before the 21st of February, because the leave-taking would have been very differ-

ent from anything which can be possible That the mind of the community has been full of late with the grievances of the unofficials, the arguments for and squinst the double military vote, and the mutual charges of disrespect arising out of this

controversy. call together the unofficial members, and in presence of the A. D. C., the A. D. C.'s sword, and the Private Secretary, scolded, appealed to, and threatened them on account of the grave disrespect of which they have (from his

point of view) been guilty. That this irregular and unconstitutional proceeding was a startling revelation to the unofficials, and has greatly ruffled the

feelings of the community. That the knowledge subsequently acquired, that His Excellency had settled the whole question of the Military Contribution, by paying over the money on his own responsibility weeks before the vote was passed, has nonplussed the community. That the attitude of the Governor through

out the solomn farce of this discussion is now clearer than it was, That he had taken up a most gravely unconstitutional position, and he was da-

fending that not the ability or inability of the Colony to pay a fair amount. That I do not remember any act of a Colonial Governor which could be set beside this

in comparison, for wanton disregard of the constitutional proprieties. That to strive at the conviction that the payment was a right one, and then to brush aside everything that was to be said against it, was an arbitrary act a parallel for which must be looked for

in the last century.

That to proceed with the defence of the vote, to go through the untruthful farce of discussing the advisability or otherwise of paying money which had already been paid, was an insult to the Council and the community, and was a serious blow to the entire system of Colonial administration.

That His Excellency, having gone so far and risked so much to demonstrate his arbitrary power, might have spared the Colony and its representatives the ordeal of his homily on the respect due to the Queen's representative.

That the 'invidious task of defending the vote 'after the money had been paid led to misrepresentations and misstatements for which no possible excuse can be given. That the only consolution in the perplexing and lamentable business is the possibility that this daving exploit may yentilate the entire question of how the smaller Colonies ought to be governed.

That even during the Race Week a Coun cil could have been called, and the urgeusy of the case put forward, anything rather than the contemptible underhand course adopted of bottling up a blunder, and attempting to cover it with a mantle of equivocation.

hat your contemporary seems to think that the gentieman known to be the legal adviser on many matters of public importance is not entitled to aid the unofficial members, if his advice be saked. That it has, I think, been too hastily comoluded that Mr Francis had much to do with the course adopted by the onofficiale.

That the proficial members, fighting the battle of the ratepayers, were in duty bound to consult the feelings and socertain the views of those whom they represented. That this applies perhaps more directly to

the members who are elected, than to those who are nominated by the Crown but it is to be regretted that the longspoken of Association of Ratepayers was not in existence to atrengthen the hands of the unofficial members. That the chief feature in the last meeting

of Council was the total absence of

At last it was Mr Nicholl, the Chemist, of Warboys (now of Croydon) who said to me, " Hodson, you had better try Mother Seigel's Unrative Syrap." On this I bought a bottle and used it, but I couldn't see it did any good. Mr Nicholl said, "Try it agein. I have such confidence in it that I will give you the second bottle free of

Then I presented myself to the astonished people of Wartoys as robust, strong, and well, as I was when I first entered the army.—I returned to my work, and my comrades looked upon me as one visen from the dead. With eyes full of wonder they asked, "What has done this for you?" and I answered "I owe my life and health to Mother Seigel's Curative Syrup, and am willing that everybody in England should hear me say so."

THIS paper is now issued every day.

The subscription is fixed at Five Dollars per annum delivered in Hong-kong, or Eleven Dollars Forty Cents in cluding postage to Coast ports.

It is the first Change Newspaper ever issued emder purely native direction. The chief support of the paper is of course darived from the native community. amongst whom also are to be found the guarantors and securities necessary to place it on a business and legal footing.

The projectors basing their estimates upon the most reliable information from the various Ports in China and Japan, from Australia, California, Singapore, Fenang, Saigon, and other places frequented by the Chinese,—consider themselves justified in guaranteeing a large and ever-secresing carculation. The advantages offered to advertisers are therefore unassaily great and the foreign community generally will find it to their interest to avail themselves of them.

The field open to a paper of this descrip-tion—conducted by native efforts, but progressive and anti-obstructive in tone

is almost limitless.
